

THE VIRTUOUS WOMAN CO.

CAPABILITY STATEMENT

The Virtuous Woman Co. (TVW Co.) is a Pennsylvania-based, woman-owned, and owner-operated small business that was founded in 2019. We specialize in providing a holistic approach to workforce development. Inspired by the missions of the Department of Labor (DOL) and the Department of Health and Human Services (DHHS) we focus on the mind, body, and spirit of individuals. Our goal is to foster active and engaging participation for workforce development clients, recognizing that true self-sufficiency requires addressing the “Whole” self. We integrate elements of nature, color, music, exercise, water therapy, and nutritional education to create a

comprehensive program that promotes personal growth and empowers individuals to achieve their goals. With a deep understanding of the diverse needs of workforce development participants, we draw upon our own experiences of utilizing similar programs to become self-sufficient. Our dedicated team is committed to creating an inclusive and supportive environment where individuals can transform their lives, thrive, and ultimately achieve self-sufficiency. At TVW Co., we believe in the power of holistic healing and its ability to unlock the full potential of individuals, organizations, and communities.
